But much education also takes place outside the classroom.</p> <p>Education involves both learning and teaching. Sometimes , people learn by teaching themselves. But they also learn with the help of other people such as parentes or teachers. Parentes are a child's first and perhaps most important teachers. But few parents have either the time or the ability to teach their children eveything that <u>they</u> need to know. A modern society cannot continue its life without education.
